

TOKEN1909 Jingzhang AI Hub — AI-era Urban Symbiosis Design for the Centennial Railway Heritage

A3 Design Booklet · Three Pillars · Three Key Areas · Scenario Cards · Components/Signage · Phasing & Responsibility

site_area_sqm = 11412825.386 sqm | green_ratio = 0.123423 | public_space_ratio = 0.073281 | geojson_layer_count = 9

Provisional boundary warning: all geometry, area, ratio, and phasing coverage in this booklet are provisional model values; full recalculation required after official SITE_BOUNDARY and KEY_AREA polygon release; not for approval or construction.

Three-Pillar Design Core

Pillar	Problem	Implementation	Expected result
01 Railway Heritage Backbone	Heritage strip cut by ring roads, walls	No large spaces, tiny, lead taper corridor, no functional space	Art installation to "Apartment street in a sleep every day", with no
02 Industry-University-City Suite	University gates, park walls, residential	Alfalfa isle parallel breakability, Altitude, edge, thin band, dark roads	Special options negotiable
03 Open-Source AI Urban Lab	Most AI parks only "smart" on render	Design public staffs after build concept	On 3-year/ negotiable Age), ship IT university with Sanatbox, etc. Dig

Three Key Areas Design

Key area	Positioning	Spatial strategy	Building & public space actions	Transport interface	Implementation risks
Zhongzhiyuan AI Self-Innovation	Global AI innovation corridor	Platform + industry	Reuse existing grey space; convert	Integrated transit hub	High density, high intensity
Beijing AI Origin Community	Campus-side achievement	University + block innovation +	Campus park community; integrated	Well-paced stations; 15-min	Capital intensity (highly ground
Dazhongsi AI Industry Cluster	Urban smart-economy	Leading enterprises + agent-based	Existing commercial core; aerial	High-speed rail; integrated	Conceptual difficulty (highly planned

AI Scenario Cards (10)

#	Scenario	Service users	Spatial location	Data source	Privacy boundary
01	Open-Source Release Hall	Developers/enterprises/universities	Ai Origin Community	Public repo + model registries	Public data only; no personal profiles
02	City Agent Sandbox	Operators/researchers	Zhongzhiyuan public space	Simulated + de-identified	Geo-fence (conceptual option)
03	Slow-Mobility Breakpoint Diagnosis	Planners/citizens	Heritage park main spine	Public data + manual review	Anonymous counts only
04	Talent Life Concierge	Faculty/students/residents	Ai Origin west wing	Voluntary opt-in	Opt-in / opt-out anytime
05	AI Safety Governance Corridor	Governance volunteers	Dazhongsi green composition	Standard docs	No personal data
06	University-Enterprise Transfer Platform	Pekinghua/PKU/CAS	Near-campus transfer street	Public IP records	IP license compliance
07	Data Element Theater	Citizens/visitors	Dazhongsi block	Asset registry	Asset-level, no individual
08	Low-Carbon Compute Station	Public service facilities	Edge compute nodes	Energy telemetry	Aggregated metrics only
09	Jingzhang Memory Route	Citizens/tourists	9 km heritage spine	Public heritage records	No personal data
10	Global AI Week Route	Global developers	Cross-domain public routes	Public event data	Voluntary registration

Public Space Components / Signage System

Component	Material	Size	Location	AI interface	Maintenance (proposed/TBD)
Developer Promenade module	Weathering steel + recycled sleeper	1.2m x 0.6m / SW=0.6m	Railway spine edges	AR anchor + edge compute	Open-Source Lab (proposed/TBD)
Honor ring plate	Recycled sleeper + brass	0.3m x 0.3m	Open-Source Plaza	GitHub ID engraving	Honor committee (proposed/TBD)
Suture corridor	Semi-transparent PV + weathering steel	Span=2.5m	Three breakpoints	Edge compute + slow-motion	Digital Signage Commission (proposed/TBD)
AI+Education block module	Existing ground-floor stock	Flexible	Community ground floor	Education content API	Education alliance (proposed/TBD)
AI+Healthcare kiosk	Weathering steel + glass	1.5m x 1.5m	Dazhongsi south wing	Triage + remote consultation	Attended physician (proposed/TBD)

Phasing & Responsibility Matrix

Phase	Update projects	Decision gates	Exit conditions	Responsibility (proposed/TBD)
M1 (0-1y)	Developer promenade / AR and Heritage guide view proposed	Heritage guide view proposed	Full backlot ground right-of-way opening	Open Space Lab + District office (proposed/TBD)
M2 (1-3y)	AI+Education / Healthcare / Commercial	Roadside look under-bridge	Full backlot safety view	District Office + Commission + SO
M3 (3-5y)	T1/T2/T3 Agent MVPs go-live	Public license + site authorization	Full backlot privacy assessment test	District government + Open-Source Lab (proposed/TBD)
Long-term	External regional synergy + cross-domain stage	Cross-domain stage	Independent operation of inter-District	District government + BTH Coordinated Dev. Office (proposed/TBD)
